“ I loved Gennady with all of my heart as did my friend, Abbey Lincoln, who I introduced Gennady to. They were both Incredible Artists who had great respect for each other's work. Gennady loved listening to Abbey's music and my son RB Lynch's music that Abbey Recorded. I met Gennady at F. I. T. as a student in his Goldsmithing Class. He patiently helped me go through all of the beginner's steps, and led me to create very special things, far superior to the limited knowledge I started out with. Gennady shared his childhood stories of learning from his mother, The great Sculptor Rulaev of Moscow (sp?) Gennady always encouraged my creativity and he had a twinkle in his eye and a hearty laugh when he determined I would not give up until I had done my very best creation. Gennady was a perfectionist, a Genius with extraordinary gifts in many disciplines and most probably the greatest living jeweler during his lifetime. He was as kind a human being as I ever met - a noble man with deep respect for all creatures of the world. Gennady was very attached to his work, his teaching, and his Irina who tirelessly helped him through the most arduous journey of his life. Gennady was unforgettable and all of who were privileged to know him will always miss him and be better artists & human beings for having known him.

“ Dearest Friend Gennady-You come often in my dreams -designing enameled Poppy Fields - sculpting natural rock magnificent statues alongside beautiful mountains. Your Magic Is Still Present & Deeply Appreciated!

“ Here in Buzios, Brazil where we are all cautioned to wear our Corona Masks Dear Gennady - I can still feel your spirit in this vast Universe - urging us to appreciate the beauty around us, to laugh a lot while we drink our wines after we listen to Abbey sing 'Down Here Below' - and to make sure the laughter is then accompanied by excelsior work

that will benefit and help the world to be a beautiful place for all creatures that live on this planet. I still remember your kindness to Abbey Lincoln's little dog 'Moseaka' when Abbey and I visited your Studio where you were constructing those magnificent hand carved Gold and Gem Clocks where all handmade parts moved in Lyrical & Perfect Coordination! y
You are missed and Beloved, Dear Gennady.
