Comments

“ Janine, this is very hard for me but as little girls we spoke about this moment right now, we just weren't sure who it would be standing here. I always said, I don't know what I would say and you would always say, when the time comes you will feel it in your heart.

As little girls, Janine always had the answers to any questions that we had about life, what job we would have when we grew up, what car we would drive, how many kids we would have. She was always the voice of reason. Janine was always talking me out of trouble, worried if big sister Christine would see us doing something we shouldn't be or worried about watching over little sister Gina and little brother Anthony or god forbid Pauli, Peter, or Jimmy Jr. found out.

Then we would both worry about mom and dad!

Janine had the biggest heart and would help anyone in the world who needed it. She was very nurturing and took care of everyone.

The most special quality about Janine was that she loved her family, her whole family, so dearly, but loved no one more than her 2 children!

As little girls, Janine and I always told each other to watch for the bright light in the sky, I will always watch for you Janine!

I will always hold you close to my heart, I love you sis

“ You were always the Sunshine with your beautiful loving smile and your enormous voice that I so loved to listen to when you sang. I remember the picnics at Argyle park with my kids when you and Gina were little and how you were always so loving and caring with the younger ones. Of all the wonderful memories I hold in my heart for you is the day you were married, Beautifully dressed and enormously happy, with the sunshine in your eyes and the promises of the future. With admiration and love you were given two beautiful children, whom you loved beyond words. My heart Loves you and will Miss you always as I always have, May you Rest in peace forever. <3

With Love,
Aunt Susan

“ Janine, I will always treasure the special memories that we made with one another growing up. We had many ups and downs but the downs is what made our relationship so special, in childhood and adulthood! You will forever be loved and missed!

Remember the light in the sky, I will always watch for you! I love you sis
